Humanistic Informatics

Ionian University

2019 - 202#

Languages

- Greek (Native)
- English (Professional)

Interests

- Gaming
- Music

- Cooking

Career Profile

I was always intrigued by computers and programming in general, now i'm in my way to become better and learn stuff about my interests. Always trying to make stuff my own way, not always the wisest or the easiest thing to do but most of the time it is fun. Interested in trying new stuff and making myself more comfortable with group projects.

Experiences

Freelance Programmer

2019 - Present

Trying to get as many personal projects as possible in order to improve.

Projects

Right now i am trying to focus on only one thing.

3D modelling of human bodies - After so many months i am still unable to make a proper human body, working on it!

Skills & Proficiency

Python

Blender

HTML5 & CSS

C & C++

Photoshop

Unity

Unreal Engine

SQL
